

BIO

My name is Abel Costantino, I live in Roma and I'm 41 years old.
I'm Art & Creative Director - Muralist - Illustrator.

When I paint I am ABEL.BAEL

I dedicate myself to a research that finds its heart in graphics,
in visual communication and archaic symbology.

I paint portals to other worlds, not necessarily distant ones,
towards future or past versions of us, linking realities.
Altars to remind us to become aware
and find ourselves in everything.

Symbols and images that want to touch remote strings
of a collective unconscious trapped between light and darkness.
